

Muhammad Aliyu Abubakar

Flutter Developer

+234 807 978 5384 · muhammadmasanawa75@gmail.com · Kaduna, Nigeria · github.com/mxg-mega · [LinkedIn](#)

PROFILE

Mobile-first Flutter developer with hands-on experience building cross-platform applications from concept to deployment. Currently developing ShopMate, a hyperlocal multi-role commerce app, and the Flutter version of BizMod featuring Inventory, Sales, and Zakat management modules. Intermediate-to-proficient in Dart and Flutter widget architecture; comfortable consuming REST APIs, managing state, and coordinating multi-role user flows. Open to mobile engineering roles where real-world impact matters.

EXPERIENCE

Product Scientist · DNA Labs Ltd / Tree World Dec 2024 – Present

- Delivered a standalone desktop utility (Python/PyQt5) to automate lab calculations — demonstrating ability to ship focused tools that solve real operational problems

PROJECTS

ShopMate — Hyperlocal Shopping App · Flutter · Dart 2024 – Present

- Building a Flutter mobile app connecting Kaduna residents to Central Market pricing for food and goods
- Supports complete order lifecycle: placement, confirmation, sourcing, pickup/delivery, and delivery confirmation across 4 roles (Customer, Shop Owner, Driver, Admin)
- Designing backend integration with BizMod to give shop owners a unified management + storefront solution

BizMod Flutter · Flutter · Dart 2024 – Present

- Mobile version of the BizMod platform with Zakat tracker, Inventory, and Sales modules implemented in Flutter
- Architected for modular expansion, mirroring the web platform's plugin-style feature toggling

BizMod Web Platform · Next.js · Full Stack 2024 – Present

- Solo-built 15-module SaaS platform (live: bizmod.vercel.app) demonstrating full product ownership from architecture to deployment

GPIA — GitHub Portfolio Intelligence Agent · Python · AI Agents 2025 – Present

- AI agent for automated GitHub repo analysis and README/CV generation; demonstrates API integration and agentic workflow design

Unity Games · Unity · C# 2023 – 2024

- Developed three game prototypes: Blades of Wakanda (team, endless runner), a reaction tapping game (solo), and an Ayo Olopon digital board game prototype with full game logic

SKILLS

Core: Flutter · Dart · Cross-platform mobile (Android & iOS)
State & Arch: Stateful/Stateless widgets · Provider/state management · Modular feature architecture
Also: Next.js · Python · C · Unity/C# · Git & GitHub · REST APIs · AI-assisted dev
Tools: Git & GitHub (Proficient) · Vercel · PyQt5 · Gemini · Devin

EDUCATION

BSc Biochemistry (2:2) · Kaduna State University · 2019 – 2025

TRAINING

GDSC Flutter Bootcamp — Google Developer Student Clubs, 2023
Maliyo Games Bootcamp — Unity Game Development, 2023
